

Summer Faculty Sponsored Projects Support Request Commitment of Effort

Faculty are advised that, pursuant to federal regulations (including 2 CFR 200), faculty are prohibited from over-committing their effort on sponsored projects. During the summer, in particular, faculty committed 100% to sponsored projects are expected to be working exclusively on those projects, and may have no other university-assigned duties.

Assurance of commitment of effort is the faculty member's responsibility. Over-commitment of effort can lead to suspension of funding and/or criminal charges.

Please note, however, that the *Summer Faculty Sponsored Projects Support Request Commitment of Effort* form is no longer required to be completed and submitted with the Notice of Appointment for Summer salary from sponsored projects.
